MIDAS REX™ MR8™
HIGH SPEED DRILL SYSTEM
Advancing surgical possibilities
For over 50 years, our Midas Rex™ platform has been the name in surgical drills. Like you, we don’t rest on our past — we build upon it. Because we innovate, we continue to be the leader in reliability, performance and surgeon preference.

The Midas Rex™ MR8™ high-speed drill system has a lower operating temperature, less chatter, improved visibility of the surgical site and even better cutting performance.

Navigable with StealthStation™ S8, it seamlessly integrates with other technologies in our portfolio.

With our comprehensive support, education, training and service, you have a partner that’s there for you from start to finish.

Midas Rex™ MR8™. It’s not just a drill. It’s advancing surgical possibilities.

Our latest drill technology delivers smooth, precise bone cutting performance with a lightweight, compact hand piece design. So you can be confident during your procedures.

- Streamlined attachment profiles for improved visibility
- Adjustable tool exposure lengths
- Engineered to reduce vibration
Our wide range of attachments have been redesigned to provide a more streamlined profile with flexible options you can tailor. So you have improved visualization and increased accessibility of the surgical site.
**EXPAND YOUR PROCEDURAL APPLICATIONS**

The Midas Rex™ MR8™ platform now integrates navigated high-speed drilling with StealthStation™ S8 for cranial applications.

With the addition of expanded cutting options, you have more cranial and spinal procedural applications, options and flexibility than ever before.

**EXPANDED SPINAL OFFERING**

Our expanded offering of navigable tools means you have the cutting options you need to accommodate a variety of spine procedures.

So you can accomplish your surgical goals with the least amount of disruption to the procedure and patient.
NEW CRANIAL APPLICATIONS

Reliable, durable, and engineered for longevity. The Midas Rex™ MR8™ platform now integrates navigated high-speed drilling with StealthStation™ S8 for cranial applications.

So you have real-time navigated drilling with a streamlined workflow.

BROADER CLEARVIEW™ PORTFOLIO

The expanded ClearView™ offerings broaden our portfolio of tools for Midas Rex™ MR8™ platform.

So you have more options for bone and biomaterials removal for lateral skull-base and posterior cervical applications.
See the device manual for detailed information regarding the instructions for use, indications, contraindications, warnings, precautions, and potential adverse events. For further information, contact your local Medtronic representative and/or consult the Medtronic website at medtronic.eu.
