MINIMALLY INVASIVE OPTIONS TO HELP YOU PROVIDE PROACTIVE GI CARE

PARTNERSHIP THAT GOES BEYOND OUR PRODUCTS

We strive to be the leading innovator in gastroenterology and hepatology, relentlessly focused on improving patient outcomes and setting new standards of care.

Our technologies can expand your ability to deliver early detection and treatment of GI diseases and cancers. Our support will eliminate barriers and strengthen your business with high-quality reliable resources that include:

- Clinical Education
- Product support

For more information visit medtronic.com/covidien/uk or contact your Medtronic representative.

DETECT EARLY.
TREAT EARLY.

Innovating for patients

Early detection and treatment of chronic GI diseases and cancers can be key to better outcomes. Discover how we can support you in achieving proactive GI care for your patients.
